Your time is better spent researching science — we'll research the supplies.

Suppliers of enzymes, antibodies, lab equipment, and over 15,000 other biomedical research products can now all be found from one source: The 1997 BioSupplyNet Source Book or its World Wide Web counterpart, BioSupplyNet.

As a companion to Cold Spring Harbor Laboratory Press manuals, The Source Book has quickly become the authority on where to find anything you would need to outfit your lab. Through our web site, you're able to search databases by product name or category. Need protease inhibitors? Click a button, and you have access to over a dozen suppliers. Click again, and you have access to protocols and specific product data for your comparison. Click again, and you have access to special offers and the latest products on the market.

Now you can find exactly what you need when you need it. Visit our web site at http://www.biosupplynet.com, and get The Source Book while you're there.
