One step beyond . . .

Experience new dimensions in biomedical research through the oculars of the Leitz® Diplan and Orthoplan® 2 research microscopes. Designed to meet the recommendations of leading research microscopists around the world, these new microscopes feature:

- Built-in-the-stand aperture and field diaphragms for true Koehler illumination down to 1.6x objectives.
- Newly designed flatfield and widefield objectives for unsurpassed brilliance, contrast and absolute neutral color rendition.
- Modular accessories for all imaging techniques from epifluorescence to interference contrast.

Find out how Leitz Diplan and Orthoplan 2 microscopes can help you keep one step beyond the field in biomedical research. Call or write for additional information or a demonstration to E. Leitz, Inc., Rockleigh, NJ 07647. (201) 767-1100.
L-Methionine, $[^{35}\text{S}]$ is now available from ICN Radiochemicals Division. Our L-Methionine, $[^{35}\text{S}]$ has been extensively tested for in vitro translations. The results of our laboratory data are available for your review.
