Research papers
Paternal DNA strands segregate to both trophectoderm and inner cell mass of the developing mouse embryo 929
Kenichi Ito, James D. McGhee, and Gilbert A. Schultz

Phase variation in Salmonella: analysis of Hin recombinase and hix recombination site interaction in vivo 937
Kelly T. Hughes, Philip Youderian, and Melvin I. Simon

Configuration of the α-fetoprotein regulatory domain during development 949
Roseline Godbout and Shirley M. Tilghman

A liver-specific factor essential for albumin transcription differs between differentiated and dedifferentiated rat hepatoma cells 957
Silvia Cereghini, Marta Blumenfeld, and Moshe Yaniv

EivF, a factor required for transcription of the adenovirus EIV promoter binds to an element involved in Eta-dependent activation and cAMP induction 975
Patricia Cortes, Leonard Buckbinder, M. Aleida Leza, Nancy Rak, Patrick Hearing, Alejandro Merino, and Danny Reinberg

Identification and purification of EBP1: a HeLa cell protein that binds to a region overlapping the ‘core’ of the SV40 enhancer 991
Lilian Clark, Roy M. Pollock, and Ronald T. Hay

The half-life of immunoglobulin mRNA increases during B-cell differentiation: a possible role for targeting to membrane-bound polysomes 1003
John O. Mason, Gareth T. Williams, and Michael S. Neuberger

An excised SV40 intron accumulates and is stable in Xenopus laevis oocytes 1012
Tamar Michaeli, Zhen-Qiang Pan, and Carol Prives

Expression, modification, and localization of the fushi tarazu protein in Drosophila embryos 1021
Henry M. Krause, Roman Klemenz, and Walter J. Gehring

Region-specific alleles of the Drosophila segmentation gene hairy 1037
Ken Howard, Phil Ingham, and Chris Rushlow

Gene encoding a morphogenic protein required in the assembly of the outer coat of the Bacillus subtilis endospore 1047
Liangbiao Zheng, William P. Donovan, Philip C. Fitz-James, and Richard Losick

Cover  Segregation of paternal DNA during early mouse development. Two-cell mouse embryo in which DNA is stained with DAPI. [For details, see Ito et al., this issue.]
