Finally, Scientific CMOS for everyone - at a fraction of the cost!

QImaging Introduces the Rolera™ Bolt

Take advantage of all the latest features in this new camera. The Rolera Bolt is easy to purchase, easy to install and easy to use. Discover how you and your team can implement Scientific CMOS today – for nearly half the price!

Scientific CMOS Camera from QImaging Easily achievable for every research facility, including yours.

NEED A CAMERA?

From UV to NIR, Hamamatsu’s extensive family of scientific cameras have your imaging needs covered. We offer over 60 high-quality cameras including our five major cameras: a high-speed scientific CMOS camera, a versatile cooled CCD camera, a dual-CCD camera for dual wavelength imaging, and ultra sensitive EMCCD cameras. For complete specifications of our major cameras, go to http://hamamatuscameras.com.

Learn more about our family of products at www.hamamatuscameras.com, or call 1-800 524 0504.
Clones, Proteins, Antibodies and Assays
One Million Gene-focused Products

OriGene’s Gene-centric Product Philosophy
Building on its industry-leading full-length cDNA clone collections, OriGene has transformed itself into the major source for gene tools. From cDNA clones to proteins, to antibodies, to assays.

BioRadiations
The Next Generation

Old Favorite, New Forum

Since 1965, BioRadiations has been the go-to resource for researchers around the world to learn about the latest Bio-Rad products and services.

The next generation of this classic publication offers deeper and more lively content in an online format:
- Video interviews with renowned researchers
- Tips and techniques, product insights, and technical reports
- A searchable archive

Browse the latest articles and multimedia content at www.bioradiations.com. Register to become an active participant in the scientific dialog — receive advance updates, rate articles, and post comments on them.

Research. Together.

Interested in what’s going on in the George Church Lab at Harvard University’s Wyss Institute? Visit our multimedia section to watch our interview with postdoctoral fellow Sriram Kosuri.
Announcing Keystone Symposia’s Genetics & Development Meetings

great opportunities for learning, debate and collaboration-building

**Epigenomics, joint with Chromatin Dynamics**
January 17–22, 2012 • Keystone Resort • Keystone, Colorado • USA
Organizers: Steven E. Jacobsen and Steven Henikoff

Keynote Speaker:
Richard A. Young, Whitehead Institute for Biomedical Research
Chromatin and the Control of Pluripotency and Differentiation
www.keystonesymposia.org/12J3

**Genetic and Molecular Basis of Obesity and Body Weight Regulation, joint with Pathogenesis of Diabetes: Emerging Insights into Molecular Mechanisms**
January 29–February 3, 2012 • Santa Fe Community Convention Center • Santa Fe, New Mexico • USA
Organizers: Evan D. Rosen, Dawn L. Brasaemle and Bart Staels

Keynote Speakers:
Aldons J. Lusis, University of California, Los Angeles
Systems Genetics Analysis of Complex Interactions in Cardiometabolic Traits
Daniel J. Rader, University of Pennsylvania Medical Center
From GWAS to Gene Function: Genetics and Physiology of Lipid and Lipoprotein Metabolism
www.keystonesymposia.org/12J7

**Complex Traits: Genomics and Computational Approaches**
February 20–25, 2012 • Beaver Run Resort • Breckenridge, Colorado • USA
Organizers: Eric Schadt, Stephen H. Friend and Iya G. Khalil

Keynote Speaker:
Leroy E. Hood, Institute for Systems Biology
The Need to Integrate and Build Systems-Level Models of Disease to Revolutionize Medicine and Impact on Patient and Human Well-Being
www.keystonesymposia.org/12B5

**Non-Coding RNAs and Eukaryotic Transciption**
March 31–April 5, 2012 • Snowbird Resort • Snowbird, Utah • USA
Non-Coding RNAs Organizers: John S. Mattick, Jeannie T. Lee and Kevin Y. Morris
Eukaryotic Transcription Organizers: David S. Gilmour, Ramin Shiekhattar, Barbara Panning and Irwin Davidson

Keynote Speakers:
Nicholas J. Proudfoot, University of Oxford
Transcriptional interactions between Adjacent Genes in Eukaryotes: Multiple Origins and Functions of ncRNA
Gerald R. Crabtree, Stanford University
ATP-Dependent Chromatin Remodeling: Developmental Roles That Go Bad in Human Cancer
www.keystonesymposia.org/12Z1 and www.keystonesymposia.org/12Z2

Keystone Symposia on Molecular and Cellular Biology is a 501(c)(3) nonprofit organization headquartered in Colorado, USA that is directed and supported by the scientific community.
www.keystonesymposia.org
1.970.262.1230 • 1.800.253.0685 (in US & Canada)
-sharing Ideas at the Frontiers of Science-

There has never been a better time to experience a Gordon Research Conference! Our high-quality, cost-effective meetings are widely recognized as the world's premier scientific conferences.

**Protein Folding Dynamics**  
January 8-13, 2012  
Ventura, CA  
AGRS® will be held in conjunction with this meeting (Jan 7-8)

**Biomolecular Interactions & Methods**  
Protein Interaction Dynamics: Theory, Method & Practice  
January 15-20, 2012  
Galveston, TX  
AGRS® will be held in conjunction with this meeting (Jan 14-15)

**Pineal Cell Biology**  
Links to Circadian Clocks, Sleep and Metabolism  
Jan 29 - Feb 3, 2012  
Galveston, TX

**Molecular Mechanisms in Lymphatic Function & Disease**  
March 4-9, 2012  
Ventura, CA

**Aging, Biology of**  
The Genetic, Epigenetic, Inflammatory, and Metabolic Origins of Aging  
February 12-17, 2012  
Ventura, CA  
AGRS® will be held in conjunction with this meeting (Feb 11-12)

**Autophagy in Stress, Development & Disease**  
Autophagy - A Universal Biomedical Paradigm  
March 11-16, 2012  
Ventura, CA  
AGRS® will be held in conjunction with this meeting (Mar 10-11)

**Genes & Behavior**  
Contribution of Sequenced Genomes to Understanding Behavior  
March 18-23, 2012  
Galveston, TX  
AGRS® will be held in conjunction with this meeting (Mar 17-18)

**Craniofacial Morphogenesis & Tissue Regeneration**  
March 18-23, 2012  
Ventura, CA  
AGRS® will be held in conjunction with this meeting (Mar 17-18)

**Reprogramming Cell Fate**  
NEW!  
Feb 26 - Mar 2, 2012  
Galveston, TX

**Protein Transport Across Cell Membranes**  
March 11-16, 2012  
Galveston, TX  
AGRS® will be held in conjunction with this meeting (Mar 10-11)

**Cornea, Biology & Pathobiology of the**  
March 25-30, 2012  
Ventura, CA

*AGRS® is a two-day seminar for graduate students and post-docs that precedes an associated GRC.*
