CORRIGENDUM

Genes & Development 23: 2887–2899 (2009)

Corrigendum: Quantitative proteomic analysis of purified yeast kinetochores identifies a PP1 regulatory subunit

Bungo Akiyoshi, Christian R. Nelson, Jeffrey A. Ranish, and Sue Biggins

In the above-mentioned article, it has come to the authors' attention that the Supplemental Material incorrectly reports a mutation in the *Fin1^{glc7-}* plasmid (pSB1237). It was originally reported that two mutations (L121 and F123) were made in the first of the five PP1-binding sites in the *Fin1* protein. However, there is only a single mutation present (F123). This does not alter any of the properties of the mutant protein or any of the conclusions in this article. The authors apologize for this error.
