ERRATUM

Genes & Development 31: 1509–1528 (2017)

Erratum: RNA-binding proteins in neurodegeneration: mechanisms in aggregate

Erin G. Conlon and James L. Manley

In the abstract of the above-mentioned review, due to an editing error, the sentence, “Here we synthesize the progress made at the clinical, genetic, and biophysical levels and conclude that this review offers the most parsimonious explanation for these mysterious diseases” is incorrect. It should read, “Here we synthesize the progress made at the clinical, genetic, and biophysical levels and conclude that this perspective offers the most parsimonious explanation for these mysterious diseases.” This has been corrected online.

We apologize for any confusion this error may have caused.
