### Review

**The POU domain: versatility in transcriptional regulation by a flexible two-in-one DNA-binding domain**  
Winship Herr and Michele A. Cleary  

### Research papers

**The head involution defective gene of Drosophila melanogaster functions in programmed cell death**  
Megan E. Grether, John M. Abrams, Julie Agapite, Kristin White, and Hermann Steller  

**Cell proliferation and DNA replication defects in a Drosophila MCM2 mutant**  
Jessica E. Treisman, Peter J. Follette, Patrick H. O’Farrell, and Gerald M. Rubin  

**Histone H4 and the maintenance of genome integrity**  
Paul C. Megee, Brian A. Morgan, and M. Mitchell Smith  

**MSH5, a novel MutS homolog, facilitates meiotic reciprocal recombination between homologs in Saccharomyces cerevisiae but not mismatch repair**  
Nancy Marie Hollingsworth, Lisa Ponte, and Carol Halsey  

**p107 uses a p21Clp1-related domain to bind cyclin/cdk2 and regulate interactions with E2F**  
Liang Zhu, Ed Harlow, and Brian David Dynlacht  

**Overexpression of HOXB4 in hematopoietic cells causes the selective expansion of more primitive populations in vitro and in vivo**  

**HnRNP L binds a cis-acting RNA sequence element that enables intron-independent gene expression**  
Xuedong Liu and Janet E. Mertz  

**GCD10, a translational repressor of GCN4, is the RNA-binding subunit of eukaryotic translation initiation factor-3**  
Minerva T. Garcia-Barrio, Tatjana Naranda, Carlos R. Vazquez de Aldana, Rafael Cuesta, Alan G. Hinnebusch, John W.B. Hershey, and Mercedes Tamame  

**Patterns of gene action in plant development revealed by enhancer trap and gene trap transposable elements**  
Venkatesan Sundaresan, Patricia Springer, Thomas Volpe, Samuel Haward, Jonathan Jones, Caroline Dean, Hong Ma, and Robert Martienssen  

---

**Cover**  
Pattern of BrdU incorporation is abnormal in CNS of DmMCM2 homozygous mutant Drosophila embryos and larvae. *(Left)* heterozygous control; *(right)* homozygous mutant embryo aged 15–15.5 hr. *(For details, see Treisman et al., p. 1709.)*
